SPIRIT FINGERS

Channeling your favorite stylish musician can be as easy as changing your nail color. A shiny Mustang red screams Gwen Stefani; David Bowie in his Ziggy Stardust days adored midnight blue nail lacquer; chipped black polish has shown up on everyone from Siouxsie Sioux to Marilyn Manson; and the girls from SWV's dangerously long fake painted tips were their signature. And if you take your style cues from ladies like M.I.A., Yelle, or Björk, then this latest crop of acid-bright polishes, from a Kermit green to a shimmering daffodil to a neon pink, will be in perfect harmony with your look.
